Projects of studies (group work)

Helsinki Business College Oy, Pasila, Helsinki

Project 1: we created a web application front-end that display 7 wonders with HTML5, CSS3 and JavaScript: <https://ahlem-17.github.io/projet/>

Project 2: we created a web application that show a list of places near to me with angular using myHelsinki Open Api: <https://near-to-me-final.herokuapp.com>

Own project

Helsinki Business College Oy, Pasila, Helsinki

I created a web application back-end and front-end Noora Cafe that sells coffee equipment and coffee-related consumer products, I used spring boot, html and css. You could verify from this link: <https://nooracafe.herokuapp.com>, login, register and add to cart worked well.
